Re: Phase Ia archaeological field reconnaissance (Goldbach 5/22/23) for the Henry Street Bridge  
Project (DHPA # 28221)

Dear Dr. Weintraut:

Pursuant to Section 106 of the National Historic Preservation Act (54 U.S.C. § 306108) and 36 C.F.R. Part 800, the staff of the Indiana State Historic Preservation Officer ("Indiana SHPO") has conducted an analysis of the materials dated and received on June 14, 2023, for the above indicated project in Indianapolis, Center Township, Marion County, Indiana.

Regarding the archaeological resources, based upon the submitted information and the documentation available to the staff of the Indiana SHPO, we concur with the opinion of the archaeologist, as expressed in the submitted archaeological reconnaissance survey report (Goldbach 5/22/23), that sites 12MA1102 and 12MA1103 do not appear eligible for inclusion in the NRHP and no further archaeological investigations are necessary. Thank you for submitting the archaeological site survey forms to SHAARD. They have been approved.

An archaeological monitoring plan for the project, covering portions both within the U.S. Army Corps of Engineers Permit Area and areas outside of the Permit Area, has been submitted to our office and we will respond under separate cover.

If you have questions about archaeological issues, please contact Beth McCord at (317) 232-3492 or [bmccord@dnr.IN.gov](mailto:bmccord@dnr.IN.gov).

Very truly yours,

Beth K. McCord  
Deputy State Historic Preservation Officer
