## White River Innovation District - March 2024 Construction Update

During March, the contractor and crews:

- Tested groundwater test tanks and released approved test samples into the storm sewer.
- Continued working on electrical duct banks.
- Worked on embankment construction north of Henry Street.
- Started duct bank embankment between stations 25+40 to 28+00 on Henry Street.
- Installed pipe along Henry Street.
- Continued backfilling duct bank trench between stations 25+40 to 28+00 on Henry Street.
- Pumped out and jet-cleaned the sanitary sewer pipe under Oliver Avenue.

*Embankment construction on South White River Parkway*

- Installed the remaining structures and pipes between the intersection of Henry Street/South White River Parkway and the existing pipe that leads to the existing detention tank.
- Lined the existing sanitary sewer across Oliver Street near the intersection with Holly Street.

*Electrical duct banks*

*Electrical duct banks*
