

## White River Innovation District - October Construction Update

During October, the contractor and crews:

*Causeway construction looking east*

### Henry Street Bridge:

- Broke ground on the Henry Street bridge
- Removed existing bridge piers downstream of Henry Street bridge location
- Began construction the causeway across the White River
- Started placing shoring for excavation on the east side of the river

### West Side:

- Cleared trees and shrubs along the west bank of the White River
- Began paving Henry and Holly streets
- Continued installation of water main and storm sewer on South White River Parkway south of Henry Street.
- Continued installation of granite curbs

*Paving along Holly St.*
