

White River Innovation District – December Construction Update

During December, the contractor and crews:

Henry Street Bridge:

- Excavated the top 18” along the pile line and erected a safety rail
- Began tying reinforcement steel cages for the drilled shafts
- Stantec continued the archeological excavation

West Side:

- Patched pavement on the D Loop (South White River Parkway)
- Began Phase C water main installation on Henry Street starting at Harding Street heading east
- Continued forming and pouring the sidewalks along Holly Street and Henry Street
