

White River Innovation District – November Construction Update

During November, the contractor and crews:

Henry Street Bridge:

- Constructed the causeway across the White River
- Began the archaeological investigation
- AES began relocating overhead power lines

West Side:

- Replaced the manhole at Chase and Henry streets
- Installed street light foundations along Holly Street
- Built the embankment on the west side to connect Henry Street with the levee
- Resumed work on forming and pouring sections of sidewalk along Holly Street, and along Henry Street west of Holly Street

completed in November
