White River Innovation District – May Construction Update

Henry Street Bridge:

- Continued working on bridge, set reinforcing steel and formwork at Pier 3.
- Set formwork, reinforcing steel and poured pier cap at Pier 5.
- Excavated and placed riprap in front of End Bent 6.
- Stantec continues Archeological Excavation east of the bridge.

Looking toward the White River and bridge construction from the excavation site

West Side:

- Completed installation of the silva cells. They are now fully protected from UV rays.
- Continued installation of granite curb along SWRP and Henry Street.
- Completed installation of all storm sewers.
- Began paving South White River Parkway (SWRP) from Henry Street to north of Elanco's drive and on Henry Street from Holly Street to SWRP.

Note: For weekly, more detailed construction updates, visit indy.gov: White River Innovation District.
