

**INDIANAPOLIS**  
**DEPARTMENT OF PUBLIC WORKS**

**White River Innovation District – January Construction Update**

**Henry Street Bridge:**

- Continued removing deck formwork from between bridge beams.
- Worked on removing forms from ring at Pier 5.
- Began assembling and installing ring reinforcing steel cages.
- Finished sheet pile wall.
- Formed and poured new slab at east end of the bridge.

**West Side:**

- Poured a section of damaged curb and truck apron.
- Worked on traffic signals and punch-list items.

*Ring at Pier #5 poured and forms being removed, looking west*
