

## White River Innovation District – April Construction Update

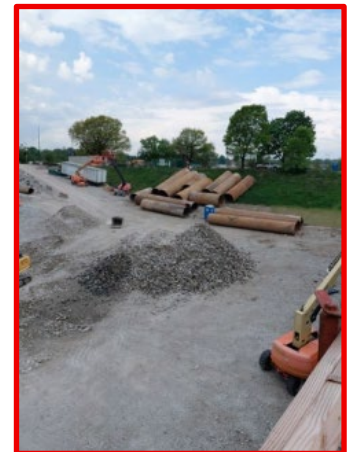

### Henry Street Bridge:

- Continued patching the bridge rings.
- Applied the surface coating to the bridge rings above the surface.
- Continued work on excavating and placing AES duct bank east of the bridge.
- Worked to reduce the footprint of the causeway and ramp in the White River.

### West Side:

- Worked on Henry Street/Indianapolis Cultural Trail between SWRP & bridge.
- Excavated and placed structural soil under the planned Trail areas.
- Repaved a section of trail between Division and Marion streets on the north side of Henry Street.
- Disposed of excavated soil located on the northwest corner of Henry Street and Marion Street.
