White River Innovation District – June Construction Update

Henry Street Bridge:

- Continued work on excavating and placing AES duct bank east of and under the bridge.
- Began installing post and cable railings along the north side of the bridge.
- Began installing the storm sewer east of the bridge.

West Side:

- Set forms and poured sidewalk on Henry St. east of South White River Parkway.
- Began placing materials on the State Park lot located on the northwest corner of Henry St. and South White River Parkway.
- Worked on tree grates along South White River Parkway.

Crews begin installing the pedestrian rail on the north side of the bridge.

Installing the storm sewers is underway east of the bridge.
